

TripLog White Paper

Why Is An Automated Mileage Log Important To My Business?

Many companies struggle with their mileage reimbursement programs, but it doesn't have to be that way.

Regardless of the size of your company or industry, a robust mileage reimbursement program is essential for your organization. Finding the best solution for your needs can be overwhelming. However, with a clear understanding of your company's goals and employee preferences, implementing the right solution can be relatively easy.

Technology has cleared the way for you to get rid of the manual mileage log. TripLog automatically and accurately tracks mileage expenses with its comprehensive fleet management solutions. Using Mobile GPS and web SaaS technologies we provide immediate time saving solutions that deliver accurate reimbursement programs.

What Does This Mean For Your Business?

Automatic Mileage Capture

No More Over Reimbursing

Streamline Reporting And Approval Process

More Efficient Route Planning

Fleet Visibility And Monitoring

Benefits Of A Mileage App Solution

Automation

TripLog's innovative MagicTrip™ feature allows for the automatic tracking of vehicle mileage. With an iBeacon device, TripLog can achieve even better efficiency and reliability. Or the user may choose the car Bluetooth option and allow the vehicle to pair with the device (smartphone or tablet).

Accuracy

No more guess work. TripLog uses smartphone GPS to record the most accurate mileage data. It also provides route planning to achieve the best cost saving and time efficiency.

Expense Management

In addition to mileage, TripLog also tracks tolls, parking, fuel, travel, meals and many other business expenses with receipt capture. You can opt in to a formal approval process to facilitate your company's payroll practice.

Accountability

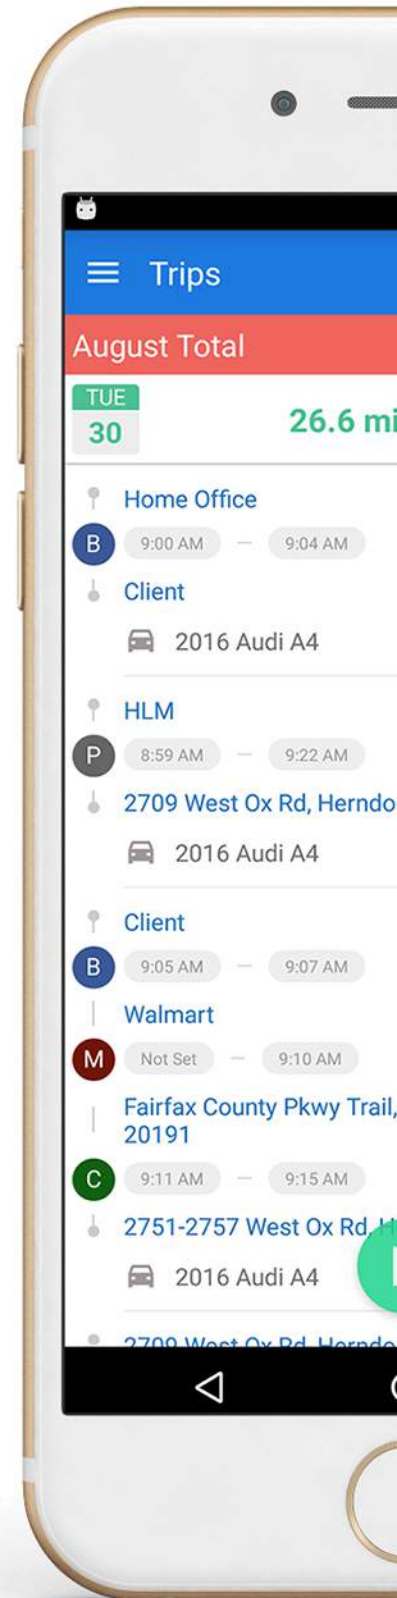

TripLog doesn't only track mileage, it also records the actual driving routes and shows them on a map view with the accurate coordinates, timestamp, and speed data. Managers can have the ability to monitor the entire fleet and review each trip to spot any potential discrepancies.

Privacy

Your data privacy is one of our top priorities. We offer the ability for the company to apply custom privacy policies. You can choose from complete lock down settings to letting users opt in and control their own data.

Integration

TripLog integrates with industry-leading solution providers, such as Concur, QuickBooks, and FreshBooks. Use our Web Service APIs as building blocks for your own data processing. We can also provide tailor made customization for your needs.

“TripLog solved our issues 100 percent. What took 4-8 hours weekly to manually impute is now done in under 10 minutes”

Ted Green Executive Director – Elder Care Pharmacy

Conclusion

Most companies begin searching for a better mileage reimbursement program due to cost saving or employee accountability reasons. TripLog is designed and specialized to take on these tasks and much more.

The first step is consulting with a TripLog professional, who will help you identify hidden costs in existing mileage capture and reporting methods, and design the right solution for your company.

A comprehensive mileage reimbursement program doesn't only help your organization's bottom line, it can increase productivity and accountability, provide tangible financial savings, and streamline a time consuming company necessity.
